Kaizen

`Make the world a better place, day by day`

This applies to your code as well

[Boyscout Rule]

`Always leave the code better than you found it.`

- Remove technical debts

- Renaming, documentation, tests, or

- Clean(er) Code

- Small or smaller, depends on you

[Broken Window Principle}

- If you start breaking it,

- Everyone will continue.

[30 second rule]

`If it takes only five minutes, do it now`

- If it can be fast, do it now

- If it is a bigger task, create a ticket

- If there are too many "five mins", create a `TODO`

- Think Big

- Start Small

- Learn Fast

- Begin Now

❓ What is hindering you ❓
